**ADDITIONAL INFORMATION SUPPORTING njd** (e.g., paragraph 1 site conditions; paragraphs 2-3 rationale used to determine NJD, including information reviewed to assess potential navigation or interstate commerce connections; and paragraph 4 site information on waters of the U.S. occurring onsite): **The 4.21 acre site is within the City of Roseville and is bordered by industrial buildings and major roadways. The area in questions is a old storm water pond that has taken on some wetland characteristics. There is no clear evidence that the depressions have any type of surface water tributary outlet connections to other waters. There would appear to be no use for these basins in interstate commerce.**
